Re: Testimonial from  
Matthew Cook & Annie Hart.

My partner and I had a very unique financial history. As a result none of the obvious financial institutions would help us to buy into the great Australian dream of owning a home. When we thought all hope was lost, a very prominent financial advisor suggested we try Cooper Financial Connections. With nothing to lose, we gave it a try.

Within weeks, the helpful staff at Cooper's had unearthed a great home loan package from a very reputable bank at a very competitive rate. They handled all the paperwork and red tape which can be very intimidating for first home buyers.

In closing, my partner and I wouldn't hesitate to recommend Cooper Financial Connections to all home buyers first to last.

Yours Sincerely,

Matthew Cook.
